

Grape King Bio Ltd.

Sustainable Development Best Practice Principles

(Translation)

Passed by the Board of Directors on November 10, 2015

Amended and passed by the Board of Directors on November 3, 2020

Amended and passed by the Board of Directors on January 14, 2022

Amended and passed by the Board of Directors on November 12, 2025

Article 1

In order to achieve the goal of sustainable development and fulfill ESG responsibility, Grape King Bio (“the Company”) has adopted these Principles for compliance.

Article 2

The Principles apply to the Company, including the entire operations of the Company and its business group.

The Principles encourage the Company to actively fulfill its sustainable development in the course of its business operations so as to follow international development trends and to contribute to the economic development of the country, to improve the quality of life of employees, the community and society by acting as responsible corporate citizens, and to enhance competitive edges built on sustainable development.

Article 3

In fulfilling sustainable development initiatives, the Company shall, in its corporate management guidelines and business operations, give due consideration to the rights and interests of stakeholders and, while pursuing sustainable operations and profits, also give due consideration to the environment, society and corporate governance.

The Company shall, in accordance with the materiality principle, conduct risk assessments of environmental, social and corporate governance issues pertaining to company operations and establish the relevant risk management policy or strategy.

Article 4

To implement sustainable development initiatives, the Company are advised to follow the principles below:

1. Exercise corporate governance.
2. Foster a sustainable environment.
3. Preserve public welfare.
4. Enhance disclosure of sustainable development information.

Article 5

The Company's ESG committee shall take into consideration the correlation between the development of domestic and international sustainable development principles as well as sustainable development trends and corporate core business operations, and the effect of the operation of individual companies and of their respective business groups as a whole on stakeholders, in establishing their policies, systems or relevant management guidelines, and concrete promotion plans for sustainable development programs, which shall be approved by the board of directors and report the status of activities to the board of directors.

When a shareholder proposes a motion involving sustainable development, the company's board of directors is advised to review and consider including it in the shareholders meeting agenda.

Article 6

The Company shall follow the relevant domestic laws and regulations to establish effective corporate governance frameworks and relevant ethical standards so as to enhance corporate governance.

Article 7

The directors of the Company shall exercise the due care of good administrators to urge the Company to perform its sustainable development initiatives, examine the results of the implementation thereof from time to time and continually make adjustments so as to ensure the thorough implementation of its sustainable development policies.

The board of directors of the Company is advised to give full consider to the interests of stakeholders, including the following matters, in the company's performance of its sustainable development initiatives:

1. Propose missions or visions of sustainable development, and formulate policies, systems, or relevant management guidelines of sustainable development.
2. Incorporate sustainable development into the Company's business operations and development directions, and review ratify concrete initiatives promotional plans of sustainable development.
3. Enhance the timeliness and accuracy of the disclosure of sustainable development information.

Article 8

The Company organizes education and training on the implementation of sustainable development initiatives on an irregular basis.

Article 9

For the purpose of managing sustainable development initiatives, the company shall create a governance structure for promotion of sustainable development, and establish an exclusively (or concurrently) dedicated unit to be in charge of proposing and enforcing the sustainable development policies, systems, or relevant management guidelines, and concrete promotional plans and to report on the same to the board of directors on a periodic basis.

The Company shall adopt reasonable remuneration policies, to ensure that remuneration arrangements support the strategic aims of the organization, and align with the interests of stakeholders.

The employee performance evaluation system of the Company should be combined with sustainable development policies, and a clear and effective incentive and discipline system should be established.

Article 10

The Company shall, based on respect for the rights and interests of stakeholders, identify stakeholders of the Company, and establish a designated section for stakeholders on the company website; understand the reasonable expectations and demands of stakeholders through proper communication with them, and adequately respond to the important sustainable development issues which they are concerned about.

Article 11

The Company shall follow relevant environmental laws, regulations and international standards to properly protect the environment and shall endeavor to promote a sustainable environment when engaging in business operations and internal management.

Article 12

The Company endeavors to utilize all resources more efficiently and use renewable materials which have a low impact on the environment to improve sustainability of natural resources.

Article 13

The Company shall establish proper environment management systems based on the characteristics of their industries. Such systems shall include the following tasks:

1. Collecting sufficient and up-to-date information to evaluate the impact of the Company's business operations on the natural environment.
2. Establishing measurable goals for environmental sustainability, and examining whether the development of such goals should be maintained and whether it is still relevant on a regular basis.
3. Adopting enforcement measures such as concrete plans or action plans, and examining the results of their operation on a regular basis.

Article 14

The Company shall establish a dedicated unit or assign dedicated personnel for drafting, promoting, and maintaining relevant environment management systems and concrete action plans, and should hold environment education courses for the Company's managerial officers and other employees on a periodic basis.

Article 15

The Company takes into account the effect of business operations on ecological efficiency, promote and advocate the concept of sustainable

consumption, and conduct research and development, procurement, production, operations, and services in accordance with the following principles to reduce the impact on the natural environment and human beings from their business operations:

1. Reduce resource and energy consumption of the Company products and services.
2. Reduce emission of pollutants, toxins and waste, and dispose of waste properly.
3. Improve recyclability and reusability of raw materials or products.
4. Maximize the sustainability of renewable resources.
5. Improve efficiency of products and services.
6. Enhance the conservation of marine and terrestrial biodiversity and ecosystems, promote the sustainable use of resources, and ensure fair and equitable benefits.

Article 16

To improve water use efficiency, the Company shall properly and sustainably use water resources and establish relevant management measures.

The Company shall construct and improve environmental protection treatment facilities to avoid polluting water, air and land, and use their best efforts to reduce adverse impact on human health and the environment by adopting the best practical pollution prevention and control measures.

Article 17

The Company shall assess the current and future potential risks and opportunities that climate change may present to enterprises and to adopt climate related measures.

The Company adopts standards or guidelines generally used in Taiwan and abroad to enforce corporate greenhouse gas inventory and to make disclosures thereof, the scope of which is advised to include the following:

1. Direct greenhouse gas emissions: emissions from operations that are owned or controlled by the Company.
2. Indirect greenhouse gas emissions: generated by the input of energy use such as electricity, heat, or steam.
3. Other indirect emissions: emissions from the company's activities that are not indirect emissions from energy sources, but from sources owned or controlled by other companies.

The Company shall compile statistics on greenhouse gas emissions, volume of water consumption and total weight of waste and to establish policies for energy conservation, carbon and greenhouse gas reduction, reduction of water consumption or management of other wastes. The companies' carbon reduction strategies should include obtaining carbon credits and be promoted accordingly to minimize the impact of their business operations on climate change.

Article 18

The Company shall comply with relevant laws and regulations, and the International Bill of Human Rights, with respect to rights such as gender equality, the right to work, and prohibition of discrimination, etc.

The Company, to fulfill its responsibility to protect human rights, shall adopt relevant management policies and processes, including:

1. Presenting a corporate policy or statement on human rights.
2. Evaluating the impact of the Company's business operations and internal management on human rights, and adopting corresponding handling processes.

3. Reviewing on a regular basis the effectiveness of the corporate policy or statement on human rights.
4. In the event of any infringement of human rights, the Company shall disclose the processes for handling of the matter with respect to the stakeholders involved.

The Company shall comply with the internationally recognized human rights of labor, including the freedom of association, the right of collective bargaining, caring for vulnerable groups, prohibiting the use of child labor, eliminating all forms of forced labor, eliminating recruitment and employment discrimination, and shall ensure that their human resource policies do not contain differential treatments based on gender, race, socioeconomic status, age, or marital and family status, so as to achieve equality and fairness in employment, hiring conditions, remuneration, benefits, training, evaluation, and promotion opportunities.

The Company shall provide an effective and appropriate grievance mechanism with respect to matters adversely impacting the rights and interests of the labor force, in order to ensure equality and transparency of the grievance process. Channels through which a grievance may be raised shall be clear, convenient, and unobstructed. The Company shall respond to any employee's grievance in an appropriate manner.

Article 19

The Company shall provide information for their employees so that the employees have knowledge of the labor laws and the rights they enjoy in the countries where the companies have business operations.

Article 20

The Company shall provide safe and healthful work environments for their employees, including necessary health and first-aid facilities and shall endeavor to curb dangers to employees' safety and health and to prevent occupational accidents.

The Company organizes training on safety and health for their employees on an irregular basis.

Article 21

The Company shall create an environment conducive to the development of their employees' careers and establish effective training programs to foster career skills.

The Company is advised to establish placement programs to cultivate future industry talents.

The Company shall establish and implement reasonable employee welfare measures (including remuneration, leave and other welfare etc.) and appropriately reflect the business performance or achievements in the employee remuneration, to ensure the recruitment, retention, and motivation of human resources, and achieve the objective of sustainable operations.

Article 22

The Company shall establish a platform to facilitate regular two-way communication between the management and the employees for the employees to obtain relevant information on and express their opinions on the Company's operations, management and decisions.

The Company shall respect the employee representatives' rights to bargain for the working conditions, and shall provide the employees with necessary

information and hardware equipment, in order to improve the negotiation and cooperation among employers, employees and employee representatives.

The Company shall, by reasonable means, inform employees of operation changes that might have material impacts.

Article 22-1

The Company is advised to treat customers or consumers of its products or services in a fair and reasonable manner, including according to the following principles: fairness and good faith in contracting, duty of care and fiduciary duty, truthfulness in advertising and soliciting, fitness of products or services, notification and disclosure, commensuration between compensation and performance, protection of the right to complain, professionalism of salespersons etc. Said company shall also develop the relevant strategies and specific measures for implementation.

Article 23

The Company follows international standards, government regulations and industry-related norms to ensure information transparency and security of products and services.

Article 24

The Company shall ensure the quality of its products and services by following the laws and regulations of the government and relevant standards of its industries.

The Company shall follow relevant laws, regulations and international guidelines in regard to customer health and safety and customer privacy involved in, and marketing and labeling of, its products and services and

shall not deceive, mislead, commit fraud or engage in any other acts which would betray consumers' trust or damage consumers' rights or interests.

Article 25

The Company shall evaluate and manage all types of risks that could cause interruptions in operations, so as to reduce the impact on consumers and society.

The Company shall provide a clear and effective procedure for accepting consumer complaints to fairly and timely handle consumer complaints, shall comply with laws and regulations related to the Personal Information Protection Act for respecting consumers' rights of privacy and shall protect personal data provided by consumers.

Article 26

The Company is advised to assess the impact its procurement has on society as well as the environment of the community that it is procuring from, and shall cooperate with its suppliers to jointly implement the corporate social responsibility initiative.

The Company is advised to establish supplier management policies and request suppliers to comply with rules governing issues such as environmental protection, occupational safety and health or labor rights. Prior to engaging in commercial dealings, the Company is advised to assess whether there is any record of a supplier's impact on the environment and society, and avoid conducting transactions with those against corporate social responsibility policy.

When the Company enters into a contract with any of their major suppliers, the content should include terms stipulating mutual compliance with corporate social responsibility policy, and that the contract may be

terminated or rescinded any time if the supplier has violated such policy and has caused significant negative impact on the environment and society of the community of the supply source.

Article 27

The Company shall evaluate the impact of their business operations on the community, and adequately employ personnel from the location of the business operations, to enhance community acceptance.

The Company is advised to, through commercial activities, supplies donations, volunteering service or other charitable professional services etc., dedicate resources to organizations that commercially resolve social or environmental issues, or to participate in events held by citizen organizations, charities and local government agencies relating to community development and community education to promote community development.

Article 27-1

The Company is advised to dedicate resources to cultural and art activities or the cultural and creative industry constantly through endowments, sponsorships, investments, procurements, strategic cooperation, volunteering technical services of enterprises, or other forms of support, to promote cultural development.

Article 28

The Company shall disclose information according to relevant laws, regulations and the Corporate Governance Best Practice Principles for TWSE/GTSM listed Companies and shall fully disclose relevant and

reliable information relating to its sustainable development initiatives to improve information transparency.

Relevant information relating to sustainable development which the Company shall disclose includes:

1. The policy, systems or relevant management guidelines, and concrete promotion plans for sustainable development initiatives, as resolved by the board of directors.
2. The risks and the impact on the corporate operations and financial condition arising from exercising corporate governance, fostering a sustainable environment and preserving social public welfare.
3. Goals and measures for realizing the sustainable development initiatives established by the Company, and performance in implementation.
4. Major stakeholders and their concerns.
5. Disclosure of information on major suppliers' management and performance with respect to major environmental and social issues.
6. Other information relating to sustainable development initiatives.

Article 29

The Company shall adopt internationally widely recognized standards or guidelines when producing corporate social responsibility reports, to disclose the status of its implementation of the sustainable development policy. It also is advised to obtain a third-party assurance or verification for reports to enhance the reliability of the information in the reports. The reports are advised to include:

1. The policy, system, or relevant management guidelines and concrete promotion plans for implementing sustainable development initiatives.
2. Major stakeholders and their concerns.

3. Results and a review of the exercising of corporate governance, fostering of a sustainable environment, preservation of public welfare and promotion of economic development.
4. Future improvements and goals.

Article 30

The Company shall at all times monitor the development of domestic and foreign sustainable development standards and the change of business environment so as to examine and improve its established sustainable development framework and to obtain better results from the implementation of the sustainable development policy.

Article 31

The Principles shall come into full force by the resolution adopted by the Board of Directors. The same procedure applies to any amendment thereto.

Article 32

The Principles is established on November 10, 2015. The 1st amendment was on November 3, 2020. The 2nd amendment was on January 14, 2022. The 3rd amendment was on November 12, 2025.
